Hi Zdenek!

Thank you very much for the INCREDIBLE Bike you built. Thank you!!!

The trip was absolutely fantastic! I rode all the street to the Brenner Pass (900 mt climb) on the saddle and maybe I am the first in history to have made this! I am so proud!!

I arrived in Venice via Bassano del Grappa on the 30th May; then I rode to Padova, Verona, Trient and finished the trip yesterday the 3rd June at 22:40 in my home in Bozen, where I met again my beautiful family!

But my greatest pleasure was the heat of the people along all the streets: they shouted and smiled from the heart in a way that they gave me the strenght to resist and go on!!!

You can find news about me, if you write on google: Massimo Zaffari, but the most interesting maybe are these photos from Czech Republic to Bolzano:

Here you will find the route planned 2-3 years ago:

The only big difference is Bratislava (I dropped it out, because I listened to all the people like you who told me not to go there).

In the end I covered 1700 Km and 7500 mt climb in 17 days, hundreds and hundreds of photoes + thousands and thousands of smiles. 17 days of great joy and happiness!! Everybody say you are the artist, everybody say I am the crazy.

Luckily I have never needed to adjust the screw on handle bar. I learnt to fix all the spokes and a bike mechanic shop owner in Burghausen checked the wheel and then he told: "The artist (he meant you Zdenk) would say it's not perfect, the mechanic (he meant himself) say it's very OK!!!"

I told him: "Your words to me are like the Holy Bible!!!"

All the best and a great thank you by Massimo.

I WILL NEVER FORGET THIS INCREDIBLE ADVENTURE, AND THIS BEAUTIFUL DREAM THAT I REALIZED ON YOUR AMAZING BIKE!!!!

PS: I told of you to everybody that asked information about the bike!!!!
